"Understanding the Job Market and Identifying Opportunities" Session for M.Sc. (IT)
3rdSemester Students"

A highly informative session titled "Understanding the Job Market and Identifying Opportunities" for M.Sc. (IT) 3rd Semester students was organized on 11th September 2023. The session, featuring Bonish Singla, the Director of Future Finders, Mohali, aimed to provide students with valuable insights into the rapidly evolving IT job market, with a primary focus on the latest programming trends, including machine learning, artificial intelligence, and Python. The session commenced with an exploration of the most recent programming trends that are currently shaping the IT job market. Bonish Singla provided a comprehensive overview of these trends highlighting the technological shifts and skill demands in the industry. A significant portion of the session was dedicated to machine learning, artificial intelligence, and Python. Mr. Singla elaborated on the immense potential of these technologies, emphasizing their application in various sectors and their transformative impact on the job market, and explained why it is a key skill sought by employers. In addition to the technical aspects, Mr. Singla shared valuable career strategies with the students. He provided guidance on crafting compelling resumes tailored to IT roles, building professional networks, and effectively positioning oneself as a competitive candidate in a highly competitive job market. The session was a valuable resource that left students feeling inspired and well-prepared to explore diverse career opportunities in the IT sector.
