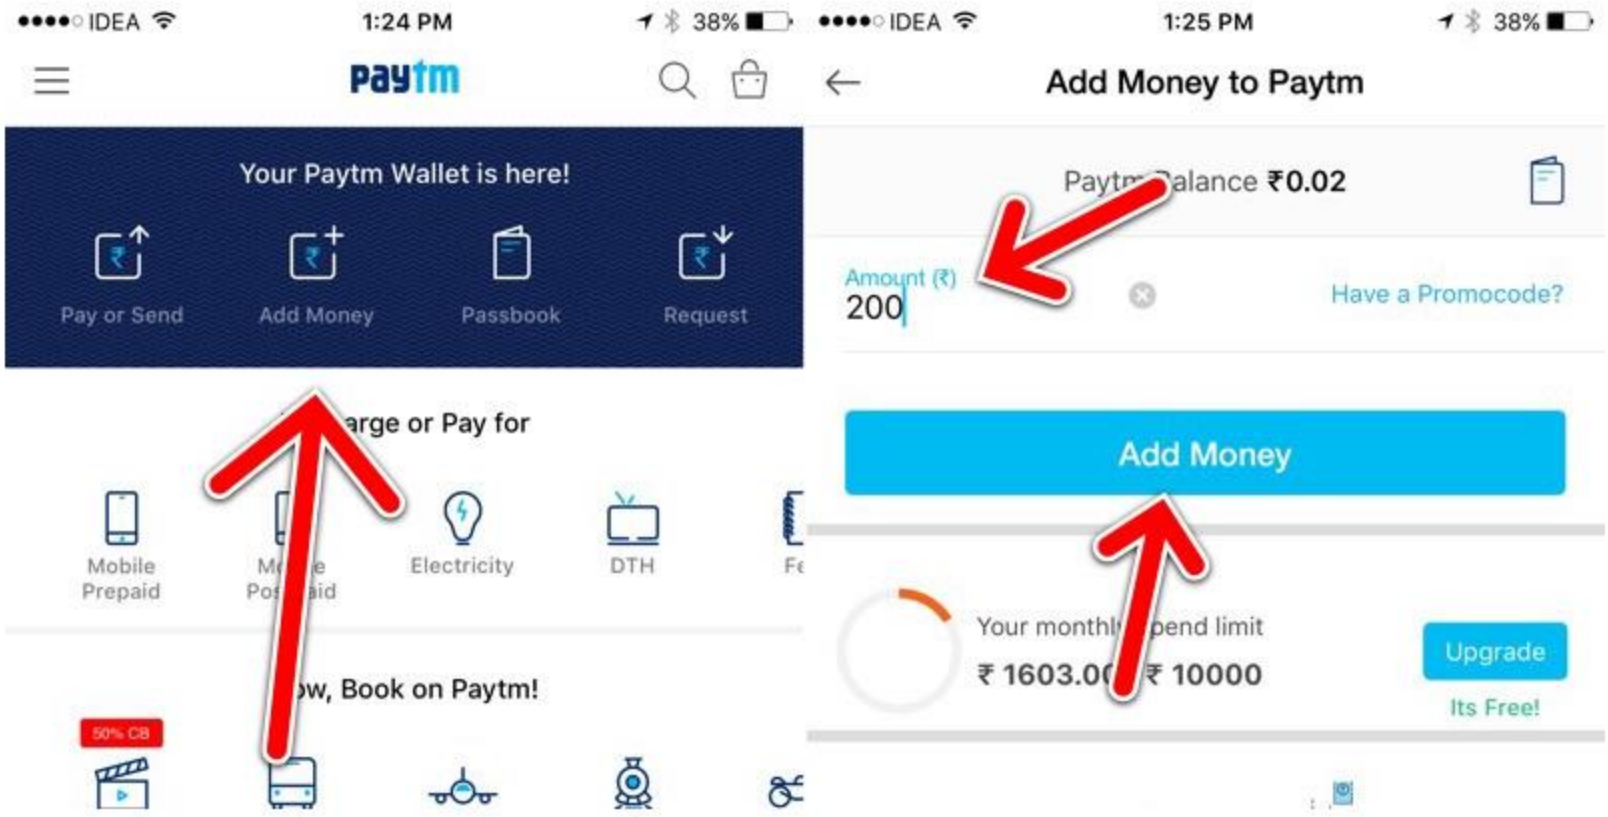
How to Add Money to Wallet

If you're going to be using Paytm to pay for Uber rides or local merchants that accept it, the first thing to do is add money to y wallet.

From "**Home**", tap on "**Add Money**".



102 6 6

Enter the amount and tap on "**Add Money**".

You'll get to the "**Payment Details**" page. If this is your first time, you'll need to add a payment method here – Debit card, Credit card, Net Banking or ATM card.

Must Do Practices

Register your mobile number at bank for regular information by SMS for every transaction

Never share your PIN to anyone

Transact at only trusted merchants

While at ATM, ensure no one is looking over your shoulders
